Marking The Turn
of
DOS PALOS HIGH SCHOOL

Published by the Associated Students

Dedication

To you, Mrs. Hale and Mr. Walker, we dedicate this annual. We hope it will show our appreciation for your loyal and faithful work with the class of '51, as our advisors.

Dos Palos High School

DOS PALOS, CALIFORNIA

During this year we are building a new high school, the result of many years of planning. You Seniors are watching it grow, but unfortunately you will not enjoy its many advantages.

For many years we have been studying in crowded buildings and I wish to congratulate you students for the fine job you have been doing under such difficult conditions.

Whether it be under crowded conditions or with a new high school unit and more room for all, I feel confident that our school will continue to hold its standards high and at all times be that friendly school where all students learn to live the American Way of life.

We must not only keep our way of life for ourselves but for all of those who come after us.

Our

The aim of every yearbook staff is to produce a book that will thrill the heart of each student as the volume is first opened and then grow in importance as the years pass by.

The desire of every yearbook staff is to cover every phase of the school year, so that students turning the pages of the book may live again the days of these particular pleasures.

The hope of every yearbook staff is to see within the pages of its volume the face of every student and to miss no single event

Purpose

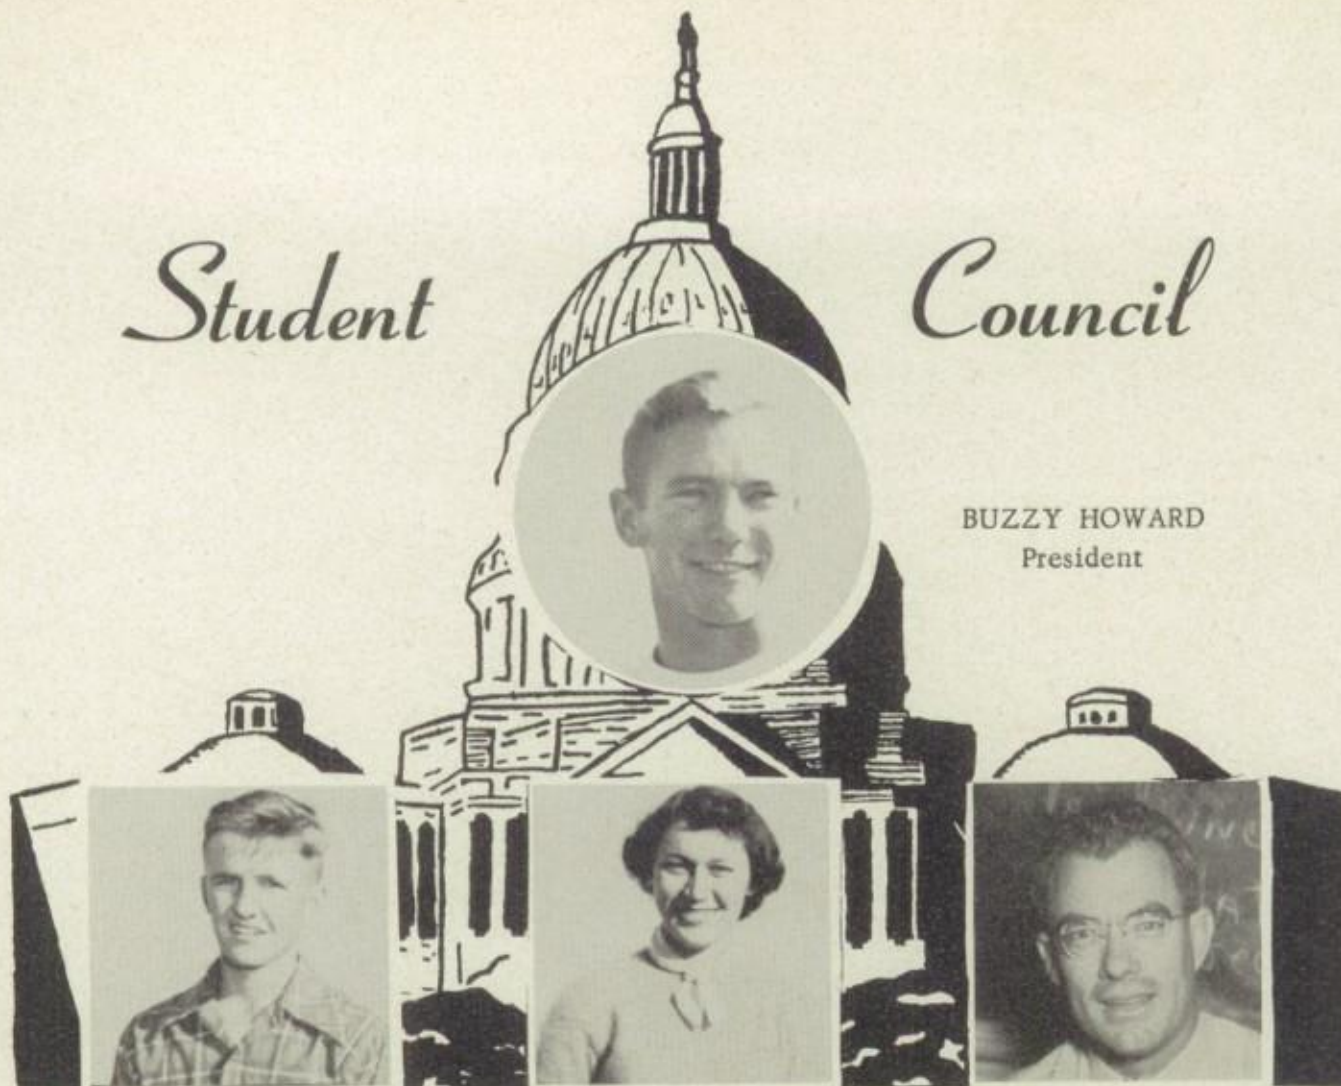

of importance.

The vision of every yearbook staff is to select a theme that is peculiar to the school, in keeping with the times, and vital to the student body.

In selecting the theme marking The Turn, the staff of the 1951 EL VAQUERO aims, desires, and hopes to have fulfilled the functions of a yearbook - for 1951 marks a new beginning and a great change in the side expansion of Dos Palos High School.

INFORMER

DOS PALOS HIGH WELCOMES NEW TEACHER

Six new teachers have joined the Dos Palos High School faculty for the September 11 school year.

Again this year, a new teacher joins the faculty. Miss Cardella, formerly a graduate of the University of California, Miss Cardella says that she enjoys teaching with the teachers who taught her. She finds it amusing because she never thought she would teach at Dos Palos.

A former Ora Loma Grammar School faculty member is Chest Dawkins, who is teaching mathematics. Mr. Dawkins taught in Oklahoma before coming to Dos Palos. He attended the Northern Central State College in Edmond, Oklahoma.

Helping Mrs. Pippinger in physical education is Miss Virginia Kenyon who is a graduate of San Jose State. "I like the first year," she says, "because I learned how to teach in the first year of school very right."

In the past, Mrs. VA instructed mathematics to Dos Palos students. She taught in the Los Angeles High School.

"I like the first year," she says, "because I learned how to teach in the first year of school very right."

Mr. who is quite crowded, but enjoyed the first day thought it was fun.

The librarians are organized for the purpose of learning methods of classifying and caring for books. This course offers one unit to each member.

Each year these girls enjoy a dinner, serving a silver tea, and a trip to San Francisco from the profits they earn by selling candy between periods.

Note of Thanks

On this last page, we pause to salute the faculty, all the students of Dos Palos High School, our annual staff, Myers & Co., Mr. Olds, Miss Falvey, and the people of our town for their co-operation, interest, and guidance in the publishing of the 1951 El Vaquero.

Beura Knight
Carol Ann Pearcy
Editors

After completing the regular El Vaquero, the regular staff was shorten to quite an extent and the supplement which you now are reading was compiled. It was our belief that it would be well worth while to make this additions and we hope you will agree.
